SKILLS

- **Proficient in:** Node.js, Express.js, Angular, PHP, Smarty PHP Template Engine, HTML, CSS, TailwindCSS, JavaScript, jQuery, MySQL, JSON, XML, Restful API, Git, GitHub, cPanel, FTP, Composer, Postman, XML Feeds, CS Cart.
- **Familiar with:** Sequelize, C, ReactJS, Redux Toolkit, Laravel, JWT, Chrome Developer Tools, Java, Operating Systems, BEM, Flutter, WHM, AWS.

WORK EXPERIENCE

Channel IT: *Full-Stack Software Developer* [03/2025 – today]

- Modernized and optimized Angular applications with **SSR** for performance and **SEO** while redesigning dashboards and core UI for scalability. Strengthened backend security by implementing **role-based access control, secured authentication, and eliminating SQL injection risks**. Delivered faster, more reliable systems through architectural refactoring, domain management features, and business-focused integrations.

Plushost: *Full-Stack Developer* [11/2022 – 09/2024]

- Resolved a performance issue in e-commerce platforms that caused slow loading times for multiple products, improving user experience by significantly reducing wait times.
- Independently managed the development of my assigned projects, providing end-to-end programming solutions to meet client requirements for various custom functionalities and mechanisms.
- Proactively offered suggestions to web designers, improving collaboration and efficiency, while maintaining focus on delivering the best possible results for the client.
- Recommended best practices for SEO optimization, accessibility, and performance, resulting in faster load times and higher search engine rankings.
